CAREER OBJECTIVE

I am a **web developer** with a year and a half of experience in software development for the **educational sector** and also with a year of experience teaching classes in a bootcamp about web development. I am looking to collaborate in a position as a **React developer**, because I would like to become an expert in that tool. For now, I like the **frontend development** better, but in In the future I would like to continue exploring opportunities such as a **backend** developer or even in **DevOps** area**.**

ACADEMIC BACKGROUND

Bachelor of Applied Mathematics and Computing
UNAM, Fes Acatlán | 2019 - 2021. Not finished

- I participated in the hackathon "UNAM Hackaton x AWS" **(November 2021)**
- I was part of a web development club for two years

Software development technician
CCH Naucalpan | 2017 - 2018

- I had my first steps in programming with C, C++ and Pascal
- I learned the basics of software, good practices, indentation, documentation, etc.

PROFESSIONAL EXPERIENCE

Web development teacher
DEV.F | 2021 - Current

- I teach classes in one of the most popular bootcamps in Latin America
- Classes range from HTML 5 and CSS 3 to Node.js
- I have been able to develop great communication skills, group management and public speaking

Fullstack developer jr.
UNAM, Fes Acatlán | 2019 - 2021.

- I developed websites for the school events difusion
- Internal systems for inventory management
- System to replace paper and help students to release their social service
